**THE PROBLEM**

IT organizations require specific, sometimes hard to find, expertise at appropriate times in application and project lifecycles but do not need to bring on new, full-time staff. Technology specialists and project managers are often needed on a just-in-time basis, to get the job accomplished quickly and efficiently.

**THE SOLUTION**

SCA provides information technology professionals dedicated to enhancing client project teams. Our professionals are of the highest quality and caliber of any in the industry. The key to SCA's consultant quality lies in our ability to identify and hire individuals with only the best qualifications. SCA management is comprised of experienced IT managers who know what to look for in IT staffing decisions. We look for and guarantee only "A" players in the information technology profession.

SCA professional services focus on technology professionals ready to support your application maintenance efforts and enhance your project teams. Our information technologists specialize in:

**CLIENT/SERVER COMPUTING**

SCA consultants have been involved in client/server computing before the term was first used. Today, we provide expertise in n-tiered, client/server technology producing component-based services in enterprise systems utilizing the following technologies:

Java, J2EE, HTML, DHTML, ASP, JSP, Java Servlets, CGI, Pearl, C/C++, Visual Basic, PL/SQL, COM/DCOM, Active X, EJB, XML, , MTS, MSMQ, IIS, Windows, Rational Rose

**WEB SERVICES**

Web services are here to stay and SCA is on the forefront of providing this leading technology in architectures such as Microsoft.NET and SunONE.

**INFORMATION SERVICES**

Information drives business and SCA provides the best in database design and development services in SQL Server, Oracle, and DB2 technologies.

**THE BENEFIT**

IT professional services of the highest caliber at a reasonable cost, dedicated to meeting your project and organization needs, creating value in your IT organization – the SCA mission!
